# Decorex Africa, is that you?

What's new then? Honestly, just about everything, says Mila Crewe-Brown, but here are some of the major shapeshifters to seek out

**D**ecorex Africa, as we know it, has been given a 21st-century overhaul that organisers RX Africa are labelling Reimagined. Before you say you've heard it all before, there's little that the show (which is pushing 30 years old) hasn't closely inspected and re-evaluated. Under the banners of relevance, innovation, inclusivity and sustainability, the show's mission is to build a better future by demanding real transformation through design. Apart from an overdue move into the Sandton Convention Centre and major investment into the virtual realm, they've got 19 new features to prove its reimagination.
